

PROGRAMME

Véronique Ducrocq
(CNRM, Météo-France, CNRS, Toulouse, France)
Phenomenology of heavy rain events

Christopher Kidd
(NASA/GSFC and University of Maryland, USA)
Precipitation remote sensing from space

Vincenzo Levizzani
(CNR-ISAC, Bologna, Italy)
*Precipitation formation mechanisms:
microphysics and cloud structure*

Piero Lionello
(Università del Salento, Lecce, Italy)
*The Mediterranean storm track and its link to
precipitation events*

Mario Montopoli
(CNR-ISAC, Roma, Italy)
Ground based weather radar systems

Richard Rotunno
(NCAR, Boulder, CO, USA)
Structure of severe precipitation systems

SCIENTIFIC COMMITTEE

Vincenzo Levizzani
CNR - ISAC, Bologna, Italy

Mario Marcello Miglietta
CNR - ISAC, Lecce, Italy

Umberto Rizza
CNR - ISAC, Lecce, Italy

Organizing Committee
CNR - ISAC
ISTITUTO DI SCIENZE DELL'ATMOSFERA E DEL CLIMA
Umberto Rizza
Mario Marcello Miglietta
Giovanni Lella
Gian Paolo Marra

Precipitation: Remote Sensing and Modelling

18– 22 June 2018
Hotel Orsa Maggiore
Castro Marina LE – Italy

Organized by:

Consiglio Nazionale delle Ricerche

Istituto di Scienze dell'Atmosfera e del Clima

Sponsored by:
American Meteorological Society
